

TOOLING SYSTEMS

Presenting Kennametal's New KM63XMZ™ Multi-Station Tool

Increase your turning throughput up to 30% versus single-point tooling!

- ▶ Reduce the overall cost of your multi-purpose machine — reduce your tooling stations from four to one!
- ▶ No need for a large backup tooling inventory!
- ▶ Compact design, with superior rigidity!
- ▶ Available in a vast variety of common interfaces!

Kennametal will significantly boost your metalcutting productivity and profitability !

Let us prove it.
